PROFESSIONAL SUMMARY

Results-driven CSM specializing in enterprise accounts and revenue growth. Managed \$2.2M portfolio with 95% retention rate while reducing churn by 11%. Expert in customer lifecycle management, product adoption strategies, and stakeholder engagement.

WORK EXPERIENCE

SeekThem

Senior Customer Success Manager

Jun 2025 – Jun 2026

- Secured \$450K in contract renewals by developing executive presentations that demonstrated customer outcomes and reframed renewal discussions around business value.
- Managed customer communication and renewal planning, working with senior stakeholders to secure renewals worth \$200K in recurring revenue while contributing to 108% NRR.
- Accomplished 118% NRR across 25+ accounts, \$2.3M ARR enterprise portfolio by identifying customer requirements and coordinating relevant product expansion opportunities.

Meditab Software

Senior Product Deployment Analyst

Aug 2019 – Jun 2025

- Owned delivery across a \$3.8M, 15+ accounts mid-market portfolio, balancing high-touch customer engagement with scalable processes while maintaining 94% gross retention.
- Delivered 92% product adoption within 60 days across 120+ new clients by replacing ad hoc onboarding with a structured implementation and training programme.
- Reduced customer time-to-value by 22% by redesigning onboarding workflows and launching a self-service resource hub to reduce manual customer support.
- Achieved 96% QBR completion across the portfolio, creating a consistent review process that surfaced customer requirements and generated \$900K in expansion pipeline.

Meditab Software

Interface Analyst

Jan 2018 – Aug 2019

- Analysed customer data and account activity to identify emerging risks and service issues, surfacing actionable insights for stakeholders to prioritise interventions and protect customer value.

KEY PROJECTS

AI-Driven Health Platform - DecodeDx

- Built and launched DecodeDX, an AI-powered SaaS platform by translating user requirements into automated workflows, reducing manual effort by 25% and improving operational efficiency.
